Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. During a telephone conversation with Mr. Aaron R Winger on Feb. 02, 2004 and 03/04/04 a provisional election was made without traverse to prosecute the invention of group VII, claims 87-93. Affirmation of this election must be made by applicant in replying to this Office action. Claims 1-87 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.
2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 87-93 are rejected under 35 U.S.C. 102(e) as being anticipated by Morgan (2001/0044293).

Regarding claims 87, 89-93, Morgan discloses a system and method for global real time account tracking comprising: establishing communication via a first link to the wireless device (see fig.1, element 10, fig.3, step 60 and its description); receiving a first message via the first link, the first message comprising indicia of identification from the wireless device (see fig.1, element 10, fig.3, steps 62-64 and its description); sending a second message via the first link to permit the wireless device to perform the part of the distributed processing application program (see fig.2, steps 64-70 and its description); and sending a third message in accordance with the indicia of identification to a server of a wireless network, the third message for enabling use of the wireless network by the wireless device for performing part of the distributed processing application program (see 1, element 24, 28, fig.2, steps 70-72 and its description).

Regarding claim 88, Morgan further discloses wherein the wireless device initiates establishment of communication via the first link (see fig. 1, element 10, fig.3, step 60 and its description).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 703-305-4024. The examiner can normally be reached on Monday-Thursday.
